

# Executive Summary

## WORK PRODUCT CHOSEN

---

### Timberline Flyer 5

- Brochure
- I chose this because my husband wanted a brochure to promote a training program hosted by a non-profit club and I was glad to be able to employ some of the things that I had learned.

### Functional and Dysfunctional Conflict

- Report
- I chose this because it was the first experience that I had with using templates in Word. Also I was happy with the written report.

### Np ppt2013

- Power Point Presentation
- I chose this because although we worked on this as part of our classwork, I felt at this point, I had learned a fair amount to use to enhance future presentations

### Universal Child Care Benefit

- Power Point Presentation
- I chose this because this was a fairly basic power point presentation that I put together. I liked the content but also like it as a before item.
